

THANK YOU

Having learnt so much about the hundreds of thousands of people who were involved in the planning, preparation and collaboration of Operation Overlord and the D-Day landings, think about everything they contributed.

Think about the processes of planning, cooperating, inventing, collaborating, keeping secrets, physical training and so much more, that they went through. Discuss what they gave, in order that we can live in a free democracy today: commitment, hard work, sacrifices and often, their lives.

Write a letter of thanks. You might like to write to an individual you have learnt about during the project, or a group of people whose work you particularly admired. You might have a relative who contributed to WW2 or you might just want to write a general letter of thanks to everyone involved.
