

Hi all,

Here is your theory work for this week. The topic is grouping and beaming notes and rests in simple time. I've made you a video talking you through it and a sheet explaining the key points from the video. Then there's a worksheet with some exercises to work through.

Here's a link to an online quiz on simple time signatures if you get time:

<https://www.educationquizzes.com/us/specialist/music-theory/grade-2-time-signatures/>

Next week there is a drop-in session for you guys to come and mark your work, talk stuff through and ask any questions you might have.

Have a good week, see you next week.

Kate
